Tips for ordering plants

Plan what you want/need. Consider your markets, ripening dates, existing plantings, etc.

Do your research on variety characteristics, best plant type (plugs, roots, bare root, etc.) for your needs and situation, and regional recommendations and experiences.

Order early to assure availability of the varieties and plant types you want.

Inspect plants on arrival to see if they are healthy looking and up to the standard grade. Care for them appropriately if not planting immediately.

Contact the nursery if you have questions or see problems.
